THE Municipality of Penang intended to open a new street there from the end of Buckingham Street to Beach Street, but had been prevented by their inability to secure a certain piece of land in the way. This difficulty has been removed by Captain Ah, Koi, who proposes to buy this piece of land and make it over to the Municipality as a free gift for making the street. When the Municipal Council met on the 8th instant, the President, Mr. J. S. Keenedy, proposed that the offer should be accepted, and that, the road should be named after the donor. This was agreed to.

Up to the time of the naval battle at Cavite, Manila was in full communication with every this evening and those who hesitate to patronise | part of the Philippines, and Captain-General Augustin was in touch with all the Spanish transfer the loyal 73rd to Baccor, food or money reinforced by rowdles ready for anything, but that the matshed is excellently situated on the fighting forces in the archipelago, that is to say Praya Reclamation where the brerze hardly ever (roughly) 1000 Spanish and 2000 native troops fails, and bear in mind that the management under General Monet in Pampanga and Bulacan provinces bordering Manile Bay on the north a similar force under General Pells in Cavite some of the objectionable and ubiquitous Eng. other manifestations of disaffection beyond and Laguna provinces, south of Manila; smaller bodies of Spanish troops distributed about the country, fifty or a hundred together, totalling about a thousand, with local fevier of native militia and "volunteers," a very indefinite very serious fashion and causing great loss of quantity, possibly ten thousand, possibly twice that; in or about Manila Itself, seven or eight abdomen. When the culprit was about to be thousand Spanish Regulars, and about the same number of native regulars; about 500 Spanish aft, and stabbed himself about the head and and 1500 native volunteers; and, on the destruction of the fleet, the garrison of Manila was augmented by the addition of about 1500 men, more than half of them natives. This brings us the total of General Augustin's command to 11,000 or 12,000 Spanish and 23,000 or more native troops. The number of Spanish troops had been about doubled during the insurrection in 1896 and 1897, and reduced again when the celebrated bogus pacification of the Philippines was effected by Captain-General Primo de Rivers. CANTON NOTES.

(From Our Own Correspondent.)

CANTON, July 21st. Ever sloce the outbreak of the rebellion in Kwangsi the Cauton authorities have been rapidly despatching bodies of troops to the principal places in the disturbed districts. The troops are sent up the river in large janks towed by steam launches.

The Military Commander Wong has, by order of the Viceroy, raised five hundred troops for the better protection of Canton, while Kwal and Cheong have each raised a force of five hundred men to be sent against the rebels in Kwangsi for the protection of the most important points. Admiral Ho Kwan Mun has been ordered to

get his whole fleet in readiness to proceed to Kwangal under the command of Lee Hok Kwan, Admiral Lao Yiun Ting has also been ordered to enlist five hundred "braves" to be in readiness for any emergency.

A potter at Shekwan in the south of Fatshan is reported to have discovered a gold mine. While sitting cooling himself one evening at one of the windows of his workshop he was surprized to see a bright light Issuing from a rock opposite. Next day he knocked off a plece of the rock and took it to a Chinese analyst, who after examining it told him that it contained from seven to eight per cent. of gold. Whether or no the potter, who by the way is known by nick-name of Ngoi Chal or "stupid-child intends to float a limited liability company in Hongkong is not stated.

THE SHANGHAI RIOTS.

The action of the French Municipal Council in respect to the removal of the Ningno Josshouse has been followed by results not wholly unexpected, considering the inflammable nature of the material with which the French authorities had to deal.

Afready many natives have been killed and the trouble does not appear to be caded. Up to the present it has been confined to the French Concession but, as will be seen below, it has siso affected residents in the Settlements North of the Yang-king-pang.

I of our party wandered out to the gate, where the salt air clung around the line, while a soothing and distinct reminder of the waves came in w long, low murmur from the shere. But it was dangerous to wander in the dark, for there are no reads in Taku and plenty of unexpected pit falls, docks and inlets, so we retired early, bent on securing if possible a trip out to sea next day, to the largest sailing vessel reported to have ever visited the Bar.

BUT ALAS! FOR HUMAN PLANS, the next day was the 10th, and as everyone knows, the roth July is the day for the rainy season to commence if it doesn't start earlier, and heavy grey clouds veteed all thought of a sea trip when we assembled to the apology for breakfast. However, there was the sea breeze, and philosophy is a grand accompaniment for a holiday, almost as good as a rain cost, but not quite, as some of us candidly confessed later in the day. So we sallied forth to do Taku. It didn't take long. It is just a tiny handful of houses, planted unostentationally amid an imposing galaxy of mud, and adumbrated by the famous mudden forts on either hand. Its uniqueness is now spoilt by the pretentious ambition of one pilot which has led him to erect à very tall brick house, which towers over the little settlemet with an ambiguous suggestiveness of Tientsin which is an offence to any intellent appreciation of the eternal fitness of things. The rest of the pilot community have adhered to the traditions the locality and house them in mudden bungalows, which are quaint, in many instances picturesque, and most certainly both warm and comfortable. They are surrounded by mud walls or fences, which retain their fresh clay color for a long period, and are thickly coated with chaff, which gives 1873-The as. Ramerolds lost on the Philip mem a dappied comfortable look, and this same chaff forms the foundation, or I should say the top layer of two large tennis courts which from the centre of the pilot village, and is I am told excellent to p'ay on. It was curious, very, this mud, mud, mud, mill zed for anything and everything; roof, walls, railings, tennis courts; the monotony hardly broken by a glimpse of green, yet looking curiously comfortable, and I believe the Taku community have a very good time of it indeed. Certainly they have a healtly time of it, for every breath is redolent of the rea which lies within sight and sound.

distinct regret that under the circumstances we had a lady in our party, and no rain coats, no Tiprickshas and no chairs, and it was therefore impossible to think of returning to Tientsin in such weather. One of us, bound by official duty's call had to go, and as we lay bick in our long chairs under the verandah which leaked I hideously every six inches of its extent, and watched him, rain-coat-less, and umbrella-less wading through mud-and water down to the launch, we did not envy him his necessity, and breathed the hope that the service for which such self-sacrifice was loyally made would never thrilling narrative of the West Indian slave abuse, as one tall fellow substituted a brick for the melon and threw it at the carriage and ran

NOT KNOWING WHAT ELSE TO DO.

To save ourselves trouble and suffering by learning from the experience of others—that is the wisdom of history. THE NEW FRENCH REMEDY.

This successful and highly popular remedy, as employed in the Continental Hospitals by Ricord, Rostan, Jobert, Velpeau, and others, combines all the desiderate to be sought in a medicine of the kind, and surpasses everything hitherto employed.

THERAPION No. 1, in a lew days only. removes all discharges from the urinary organs, effectually superseding injections, the use of which does irreparable harm by laying the SHIP-CHANDLERS, SAILMARERS foundation of stricture and other serious diseases. In dysentery, piles, irritation of the lower bowel, cough, bronchitis, asthms, and some of the more trying complaints of this kind, it will be found astonishingly efficacious, affording prompt relief where other well-tried remedies have been powerless.

THERAPION No. 2, for impurity of the blood securry, pimples, spots, blotches, pains and awellings of the joints, secondary symptoms, disease of the bones, sere throat, and all diseases for which it has been too much a fashlon to employ mercury, sarsaparlila, &c, to the destruction of the sufferer's teeth and ruin of health. This preparation purifies the whole system through the blood, and throughly eliminates every policonous matter from the body.

THERAPON, No. 3, for nervous exhaustion, waste of vitality, and all the distressing consequences arising from early error, excess, residence in hot, unhealthy climates, &c. It posseses surprising power in restoring strength

and vigour to the debilitated. THERAPION may be procured at sig and 4/o per package, of the principal Chemists and Merchants throughout the world. In ordering, the purchaser should state which of the three numbers he requires, and observe that the word "THERAPION" appears on the Government, Stamp (in white letters on a red ground) affixed to every genuine package by order of Her Majesty's Hon, Commissioners, and without which it is a forgery.
